## My Projects

### VAAHAA NATURALS

**Role :** Full Stack Developer

**Technology :** HTML, CSS, JavaScript, JQuery, PHP, SQL, Mysqli, Codeigniter

**Domain :** <https://vaahaanaturals.com>

**Description :** Developed an innovative e-commerce application featuring a wide array of organic products. The platform boasts an intuitive admin panel empowering seamless order tracking, inventory management, and POS billing capabilities. Experience a user-friendly shopping journey while exploring and purchasing high-quality organic goods.

### DINDIGUL PARENTING CLUB

**Role :** Front end Developer

**Technology :** HTML, CSS, JavaScript, JQuery, PHP, SQL, Mysqli, Codeigniter

**Domain :** <https://dindigulparentingclub.com/>

**Description :** Empowering families through a holistic approach, we promote effective parenting styles, mental and physical health, and skill development in children and parents. Our platform offers networking opportunities for entrepreneurs, fostering creativity and growth. We strive to cultivate harmonious family dynamics and support mompreneurs with a dedicated virtual space. Join us in building a strong community, united in achieving personal and collective goals.

### JJ Housting and Properties

**Role :** Full Stack Developer

**Technology :** HTML, CSS, JavaScript, JQuery, PHP, SQL, Mysqli, Codeigniter

**Domain :** <http://www.jjhousingandproperties.in>

**Description :** Welcome to our cutting-edge real estate management application, where property categories like commercial buildings, plain lands, and residential buildings are meticulously organized by the admin. Users can effortlessly browse through a comprehensive list of properties and submit enquiries with ease. Our admin panel provides seamless lead management, allowing for efficient tracking and categorization of leads as conversion or fake leads, ensuring a streamlined sales process. Experience the power of simplified property management and lead tracking with our innovative platform.
